SENSATIONAL NEW STRAWBERRY PLANT HANDLING IS DEVELOPED.

Saves Nurserymen up to 50% of Shipping Charges.

Realizing that a nursery man's profit on smaller sales is to a certain degree directly dependent on the shipping expense he has to pay, Judson's Wholesale Nursery has developed an entirely new method of digging strawberry plants. An amazing new machine of our own design digs the plants, retains the whole root, and eliminates all dirt. Thus when you ship Judson's plants, you or your customer pay parcel post or express charges on the plants alone, representing a distinct saving to you of up to 50%, of your shipping charges. Judson Wholesale Nursery alone can offer you such remarkably dirt free and yet completely rooted plants. You save in this respect and you get exceedingly better plants when you buy Judson's.

JUDSON DIRECT SHIPMENT SERVICE ELIMINATES HANDLING

For 1939 Judson's offer a new economy packing out service. You simply send your express or parcel post tags to us. We ship direct to your customer, eliminating double handling. For this service we make a nominal charge of 10c

per 100 for lots of less than 500, 25c for lots of 500 or more, and no charge handling lots of 1000 or more. Take advantage of this new service. Write us for price on packing out large quantities.

INDIANA'S LARGEST GROWERS — NEW FERTILE SOIL

Judson's Wholesale Nurseries are located in the rolling hills of Northeast Indiana and the soil in which our plants are grown is exceptionally fertile loessial deposit. Legume cover crops are plowed under, to prepare the soil for the growing of each year's crop of plants, and in addition several applications of fertilizer by a machine of our own design results in healthy, heavily rooted, highly productive plants, big in size and full of vigorous growth.

Our equipment for handling and shipping plants is the best. Each bundle is labelled, and carefully moss-packed in ventilated crates (26 to a bunch, counted as 25). Plants are all double state inspected, guaranteed true to name. Mother stock is selected from the best producing blocks. Our climate offers dormant plants for your customer. All orders filled promptly.
